6' Ladder Trellis Assembly Instructions (Wood)

Parts List	
3	Vertical Trellis Pieces (long)
7	Horizontal Cross Pieces (short)
21	Snap Lock Connector Sets
1	Mounting Hardware Kit (free)

No Tools Required !!!

Congratulations! The garden trellis that you have purchased is the equivalent of “Plug-And-Play” devices in the computer world—extremely simple to use right out of the package. All you need to know for the successful 5-minute assembly of this product is to understand the following:

1. The fasteners

← This is a female fastener

(We asked the factory guys to include a couple of extras in case you lost one—or they miscounted)

This is a male fastener →

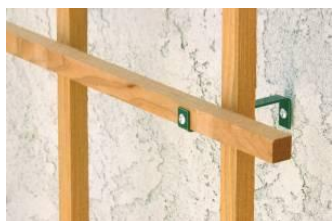

2. The front of the trellis is the side on which the horizontal pieces are facing you.
3. We suggest that you assemble as follows:

Lay out the vertical pieces on a hard flat surface and insert the female fasteners through the pre-drilled holes from the back of the trellis toward the front.

Then, one horizontal piece at a time, working from one end of the trellis to the other, continue inserting the female fastener through each of the seven horizontal pieces and then insert the male fasteners into the female fasteners until they snap into place.

Be sure to place the notches of each horizontal piece toward the vertical pieces, so that the notch fits tightly into the vertical piece.

That’s it. If you have any difficulty whatsoever, please visit our website, www.bluemarbledesigns.com, where we have video assembly instructions for your viewing pleasure. If still confused, please give us a call at 925-262-9646 or 925-262-9661 and we’ll help you resolve the issue.

BTW, there are trellis mounting brackets included, which can sell for as much as \$4.95 at retail outlets. You may choose to use the brackets, depending on the location of your intended use of the trellis.

*Enjoy your new 6' Snap 'n' Grow Ladder Trellis
