Magnum Planter Box Assembly Instructions

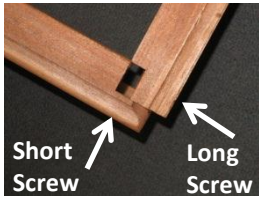

Parts List	
2	Side Panels
2	End Panels
3	Bottom Panels
8	Short Wood Screws
8	Long Wood Screws

Tools Needed:

1 screwdriver (manual or power)

1. Unpack planter box from carton and layout all parts including hardware (8 long wood screws and 8 short wood screws).

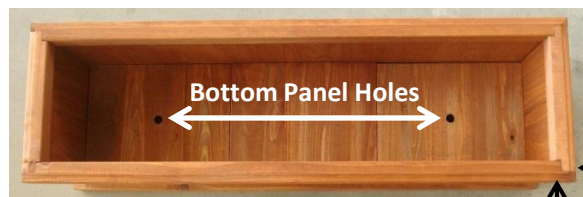

2. Place planter box corners of one Side Panel and one End Panel together to form a tight seam. (NOTE: Long wood screws go through end panels into side panels; short screws go through side panels into end panels. See picture below.)

3. Screw in two wood screws at the top and bottom of the planter box (4 screws total). Repeat the process for the other Side Panel and End Panel of the planter box (4 corners total).

4. Set planter box bottom panels (3) into place as shown. NOTE: Panels with holes should be placed at each end of the planter box as shown below.

Short Wood Screw
